

## Quattro PLUS CRE

Heavy duty, cogged raw edge EPDM wedge belt  
Relative Power  $\neq$ 150

The Fenner® Quattro PLUS CRE is a step forward in belt technology. It's high performance unique polyester tension member and EPDM contact section allows it to transmit 26% more power than traditional CRE range and offers up to 15% longer service life.

### Benefits

- > Synthetic rubber EPDM heavy duty wedge belt
- > Embedding compound for stable power transfer
- > Enhanced tooth profile improves belt flexibility, reducing bending resistance and increasing efficiency and life
- > Unique construction of the polyester tension member improves accuracy and stability of belt length
- > Reduced belt weight lowers inertia and reduces vibration allowing smoother running
- > Lower pre-tensioning force allows longer bearing life and extends maintenance periods between re-tensioning
- > Abrasion resistant compound for enhanced durability
- > Extended temperature range -40°C to +130°C
- > PB® (Precision Build) technology, eliminating the need for matching
- > Conditionally oil resistant
- > Fully approved by all international standards
  - > BS 3790 (British Standard)
  - > ISO 4184 (International Standards Organisation)
  - > DIN 7753 (German Institute for Standardization)
  - > Electrically conductive in accordance with ISO 1813
  - > Conforms to American Petroleum Institute specifications

### Sections and Size Range

Profile	QSPZ	QSPA	QSPB	QSPC
Length Range (L <sub>d</sub> (mm))	512 - 3550	590 - 4000	1000 - 6700	1900 - 5000

### Construction
