

Jaw Coupling

Jaw Coupling

Absorbing incidental misalignment, shock loads and small amplitude vibrations, Fenner Jaw couplings offer a low cost flexible solution for most applications.

Benefits

- > Ease of alignment
- > Fail-safe shaft connection
- > Range of element materials available including nitrile, urethane and Hytrel
- > Pump spacer variant available (100mm or 140mm length)
- > Quick-fit wrap around element available
- > Design powers up to 42.2kW available at 1440rpm
- > Ambient operating temperature range -50°C to +120°C

Size Reference

Size reference	Maximum bore size in mm
	Bore and keyed
035	9
050	14
070	19
075	24
090	24
095	28
100	35
110	42
150	48
190	55
