

THE UNIQUE STEITZ SECURA MULTI-WIDTH SYSTEM:

As you can see in the table, somebody with a foot width of 107 mm usually selects a size 44 shoe, since this fits the width. However, if his foot is only 262 mm, i.e. a 41 shoe size, the shoe is much too long. You can see that simply reducing the foot size to the shoe size doesn't line up with reality. That is why we manufacture most models in four different widths per shoe length. Everyone can find the perfect shoe. Compromises are a thing of the past!

Size (Paris stitch)			Foot length	Foot width			
Men	Women	UK		S	NB*	XB	XXB
	35	2	217 mm	85 mm	88 mm	91 mm	94 mm
	36	3	225 mm	88 mm	90 mm	93 mm	96 mm
	37	4	232 mm	90 mm	92 mm	95 mm	98 mm
38	38	5	240 mm	92 mm	95 mm	97 mm	100 mm
39	39	6	247 mm	94 mm	97 mm	99 mm	102 mm
40	40	6,5	255 mm	96 mm	99 mm	102 mm	105 mm
STEITZ multi-width system	41	41	262 mm	98 mm	101 mm	104 mm	107 mm
	42	42	270 mm	100 mm	103 mm	106 mm	109 mm
	43		277 mm	102 mm	105 mm	108 mm	111 mm
without multi-width system	44		285 mm	104 mm	107 mm	110 mm	113 mm
	45		292 mm	106 mm	109 mm	112 mm	115 mm
	46		300 mm	109 mm	112 mm	114 mm	117 mm
	47		307 mm	111 mm	114 mm	117 mm	120 mm
	48/49		315 mm	113 mm	116 mm	119 mm	122 mm

* NB is the standard width of a shoe without multi-width system

DETERMINING THE SIZE AND WIDTH WITH THE MOULD MEASURING SYSTEM.

OUR FASTEST METHOD TO CHOOSE THE PERFECT SHOE FIT FOR YOU.

For each shoe size, there are shells of different widths that precisely map the interior of our shoes with their three-dimensional surface. This is how you get to experience Steitz Secura safety shoes in different sizes and widths – only in a much shorter time!
