productinformation

tesa® 4364
Masking paper with slightly creped adhesive paper tape

Easy Cover® 4364 is a combination of high quality folded special paper and a slightly creped adhesive paper tape for the masking of large areas in one working step. It is resistant against dispersion paints and can easily be removed after short term applications without residues.
Easy Cover 4364 is successfully tested for all standard in-door applications. It allows safe and precise fixation on even surfaces such as skirting boards, window sills, window and door frames. The masking paper avoids paint bleeding or leaking to the protected area. Easy Cover 4364 will achieve a clean paint result with straight paint edges.

Main Application

For base boards, window sills, door and window frames etc.

Technical Data

Backing material	slightly-creped paper	Elongation at break	10 %
Total thickness	140 µm	Tensile strength	38 N/cm
Type of adhesive	natural rubber	UV-resistance	1 weeks
Adhesion to steel	3.4 N/cm	Material of masking coverage	paper
