

Hygienic Motors

Fenner® hygienic wash-down duty electric motors

In environments that demand an especially high level of hygiene or use aggressive cleansing agents that eat traditional drives, the Fenner® range of hygienic stainless steel electric motors provides complete interchangeability with any existing motor population for simple upgrades offering up to 15 times the service life.

Benefits

- > Hygienic design, smooth and free draining surfaces
- > Corrosion and chemical resistant high quality electro polished stainless steel AISI 316
- > No ID plates, specifications are etched on the surface
- > IP66 (optional IP69 K) to withstand sanitary washdown
- > Motor offers IEC interface with class F isolation, and O ring sealed terminal box
- > Motor comes with unique anti-condensation breather as standard
- > Suitable for frequency inverter duty

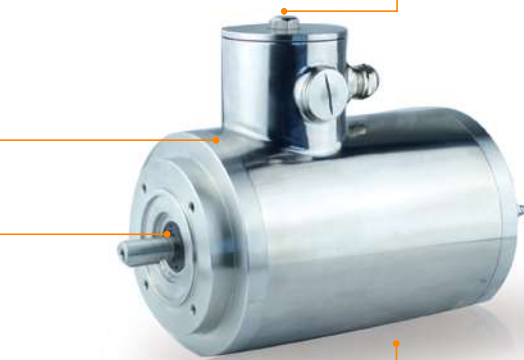

Motor Range

- 2 Pole 0.18kW to 7.5kW
- 4 Pole 0.18kW to 7.5kW
- 6 Pole 0.18kW to 2.2kW

Construction

Stainless Steel AISI304/316 has an electrical polished surface that guarantees a smooth finish

The unique anti-condensation breather balances the pressure difference

Blue oil seals FDA approved
